

# Compare versions with Maximizer CRM 12: Winter 2012

Group and Enterprise Editions

The Winter release of Maximizer CRM 12 continues to build on the theme of enhanced performance, usability and productivity while maintaining Maximizer's position in the market as a simple and easy to use CRM for small to medium businesses and enterprise organisations.

To be successful your sales, customer service and marketing teams need access to critical customer information – anywhere and anytime.

The Maximizer CRM 12 Winter 2012 release speaks to this by providing enhancements and new features that makes it easier to access information from all web enabled devices such as smartphones and tablets, more

integrative features with Microsoft Office® applications, and overall access and usability improvements for web and on-premise.

The following chart provides a comprehensive comparison of new and/or enhanced features and capabilities of the Maximizer CRM 12 Winter 2012 release with previous versions of Maximizer.

#### Key Improvements:
